Subject: CRU Round Table

Dear Mayor and Councillors,

I would like to personally extend an invitation on behalf of CRU to a Round Table discussion.

The purpose of the Round Table is to have a genuine and open-minded discussion regarding Coastal Hazards and related matters.

We would like to provide an opportunity for Councillors to get first-hand information and ask any questions they feel will give them a better understanding of the situation.

Some of the key points that we would like to discuss would be:

- Communication with Council
- Jacobs Volume 1

Councillors are also free to include additional points that they feel would be relevant to the discussion.

To ensure that we are able to engage on these matters, Mrs Katharine Moody (CRU Expert Planner) and Dr Jeff Ashby (CRU Science Team) will be also in attendance. For those of you who do not know them, I have attached their bios to this email.

Both Katharine and Jeff participated on behalf of CRU in the one meeting with Jacobs in November last year.

We are hoping for an outcome that would jointly identify solutions that would be a roadmap for CRU and Councillors to move forward together.

And to achieve this outcome, we need to talk and listen to each other - CRU is a willing participant and we hope that you will be too.

We have scheduled the Round Table for 8 February between 2:00 pm - 3:00 pm at the Conference Room - Kapiti Airport.

Afternoon Tea will be provided - and as this is being catered, I would appreciate it if you could send through an RSVP no later than 2 February (Wednesday).

Please remember, given the current Covid 19 red light status, Vaccine Passes will be required to enter the premises.

Please do not hesitate to contact me directly if you have any questions or queries.

Regards,

Salima Padamsey

Chair - Coastal Ratepayers United
